NIKITA SOLOVYOV
Junior QA Engineer (Automation)
solo.mykyta@gmail.com | [Telegram](#) | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [GitLab](#)

💼 Professional Summary

🎯 Junior QA Engineer specialized in automation testing, API, CI/CD, and performance/security testing. **Delivered 18 real-world projects** with **UI/API automated tests**, **Python scripting, CI/CD pipelines**, and **performance** checks.
Experienced with Selenium (POM), Pytest, Postman/Newman, Docker, GitHub Actions, GitLab CI, JMeter, k6, OWASP ZAP.
Known for attention to detail, strong analytical thinking, and proactive problem-solving, ensuring high-quality software delivery.

⚙ Skills

- **Automation Testing:** Python, Pytest, Selenium (POM), Allure

- **API Testing:** Postman, Fiddler, Newman, Requests

- **Performance & Security Testing:** JMeter, k6, OWASP ZAP

- **CI/CD:** Docker, GitHub Actions, GitLab CI

- **Databases & SQL:** MySQL Workbench, PostgreSQL

- **Mobile Testing:** Android Studio

- **Manual Testing:** Test Cases, Checklists, Bug Reports

- **Test Management:** Jira, TestRail

- **Version Control:** Git, GitHub, GitLab

🏆 Key Projects

1. **[QA Documentation](#)**
   Full QA documentation for multiple real websites: **14+ checklists, 50+ test cases, 30+ bug reports,** screenshots. Tested **Manual, UI, Mobile, API.**

2. **[GitHub Actions Docker Pipeline](#)**
   Automated building, testing, and publishing of Docker images via CI/CD pipelines. Runs **unit, integration, end-to-end, and smoke tests automatically**.

3. **[Postman Newman API Tests](#)**
   Designed and executed **30+ automated API tests** integrated into CI/CD for continuous execution and reporting.

4. **[UI Automation – Selenium (Docker + Allure)](#)**
   Automated UI testing using **Selenium** with **POM and parameterized tests**, integrated with **Docker** and **CI/CD** pipelines for Allure report generation.

5. **[Performance Tests – JMeter & k6](#)**
   Developed **load** and **stress testing** scripts for web services with automated result collection and publishing.

6. **[GitLab CI Python CI/CD Project](#)**
   CI/CD for Python applications with branch-specific test execution. Pushing to branches triggers **unit, integration, smoke, or end-to-end tests automatically**.

🧠 Soft Skills

- Attention to Detail • Analytical Thinking • Team Collaboration • Self-Learning • Responsibility • Problem Solving
